

## Spring Grove Borough Residents

This is your free Trash and Recycling Cart from Republic Services. These carts are provided at **no additional** cost to you as they are property of Republic Services. We are delivering these carts to make it safer for our employees. By providing these carts we can start using an automated truck in Spring Grove Borough which decreases the risk of serious injury for our employees. Even when we don't have an automated truck available, this still helps our employees prevent injuries. We commonly get needle sticks, torn muscles or throw out backs when lifting heavy cans or loose bags. The carts allow us to use a claw on automated trucks to dump, or a cart tipper on standard trash trucks so the employees don't have to lift heavy items. Please ensure your trash and recycling are out for pickup the night before service. Again, there is no additional cost for these carts, they are being provided for free by Republic Services

When placing your trash and recycling carts out for pickup, please ensure that the carts are at least 3 feet apart and are also at least 3 feet from any stationary objects like mailboxes, walls, vehicles or trees. The carts should also be placed with the handles facing toward your house so that the side that opens is facing the road.

Because we will be servicing carts with automated trucks and need to have room for the claw to grab the carts to dump them, it's important that you keep this 3 ft. of space around the carts. We understand street parking may not allow this for some residents but please do your best to make carts as accessible as possible.
